Veneer Stacker R7

Accurate vacuum belt stacker for even veneer stacks.

BENEFITS

- up to 30% less electricity consumption per stacked m^3 than older Raute stackers
- Smaller dust stations due to less air flow
- Can handle almost unlimited number of sheet categories

TECHNICAL DETAILS

Veneer thickness (mm)	up to 10
Installed power (kW)	1,5-15 / section
Stacker total length up to	For one stacker 32m
Veneer sheet length (ft)	4-11
Veneer sheet width (ft)	4-14
Stacking of random sheets	●
Speed up to	330 m/min
Kicker arm material	Plywood or fiber
Suction system	Fit to veneer size
Movable vacuum boxes (variable ft)	●
Trash handling (trash gate)	●
Dust filtration	●
