The chairman stated the proposal by the Board of Directors that the Annual General Meeting would authorize the Board to decide on the repurchase of a maximum of 400,000 of Raute Corporation's series A shares using assets from the Company's non-restricted equity.

According to the proposal, the Annual General Meeting would authorize the Board to decide on the repurchase of a maximum of 400,000 of Raute Corporation's series A shares using assets from the Company's non-restricted equity, which would lead to a decrease in the Company's distributable assets. The proposed number of shares is less than ten percent (10%) of the Company's overall shares.

The authorization would entitle the Board to acquire the Company's series A shares to be used for the development of the Company's capital structure, as consideration for funding or carrying out any acquisitions or other arrangements, or to be otherwise disposed of or cancelled.

The purchase consideration paid for shares purchased by virtue of the authorization shall be based on the price of the series A share in public trading so that the minimum price of acquired shares is the lowest market price quoted in public trading during the term of validity of the authorization and the maximum price, correspondingly, the highest market price quoted in public trading during the term of validity of the authorization.

The authorization includes the right to acquire shares other than in proportion to the holdings of the shareholders. A targeted repurchase of the Company's own shares can take place, for example, by acquiring shares in public trading in markets where, according to the regulations, the Company is permitted to engage in the trade of its own shares. Repurchasing shares in public trading as mentioned above or otherwise in a targeted way, requires that the Company has a weighty financial reason to do so.

Series K shares can be converted to series A shares, in accordance with Article 3 of Raute Corporation's Articles of Association.

The Board of Directors will decide on the other conditions related to share repurchases.

This authorization shall take the place of the authorization granted by the Annual General Meeting March 31, 2010 and is effective until the end of the next Annual General Meeting, or at the latest until May 31, 2012.

The Board of Directors may decide to issue either new shares or company shares held by Raute. The maximum number of shares issued is 400,000 series A shares. The authorization is effective until the end of the next Annual General Meeting. As proposed, the authorization will be used to fund or carry out acquisitions or other arrangements or for other purposes decided by the Board of Directors.
